

Two Tags Gift Box
Instructions by Yvonne Metz
Original idea by Lisa Curcio & Jill George

Supplies needed:
 Cardstock – your choice
 Big Shot - 113439
 Bigz Die- 115954 Two Tags
 Adhesive

Step 3 cont...

On the 2 7/8 side score 1/2 inch on each side. The easiest is to place cardstock on your fiskars cutter where the red arrow is pointing. After all scoring fold and crease all scores made with your bone folder.

These are all the things you'll need.
 1 – 2 7/8 x 6 3/4 piece of cardstock
 2 – Tags
 1 – 3/4 x 6 3/4 strip of cardstock for handle
 1 – 1' x 9 3/4 piece of Designer Series Paper

Step 4 – Snip sides as shown in photo on each side (6 3/4)

Your piece should look like this.

if you desire a Belly Band. Or any other embellishments that you would like for this box.

Step 1 – on 1 of your tags place sticky strip as shown.

Step 5 – Flip the cardstock over and with sticky strip place on the 4 corners as shown.

Or before Step 4 place a long strip of sticky all the way down then snip.

Step 2 – place the other tag on top as shown. Use bone folder to smooth the 2 pieces together.

Step 6 – One side at a time take sticky strip off and fold inside the bottom edge of cardstock as shown in this photo. Do this on each side.

Step 3 – Scoring-
 On the 6 3/4 side score at 2 turn and score again at 2

Step 7 - Place in the middle of both tags lining up as shown.

Repeat Step 6 & 7 for other side. I did both separate so my sticky strip wouldn't stick

where I didn't want it to.

Your piece should now look like this after you've put together both sides.

Step 8 – Add your handle as shown.

Then wrap your belly band around the middle of your box or wherever you'd like it to go and decorate as

you'd like.

The possibilities with this box are just endless!
Very Cute, Fun and Easy Box.
